

ALG1 (involved in glycosylation)

DPM1 (DPM1)

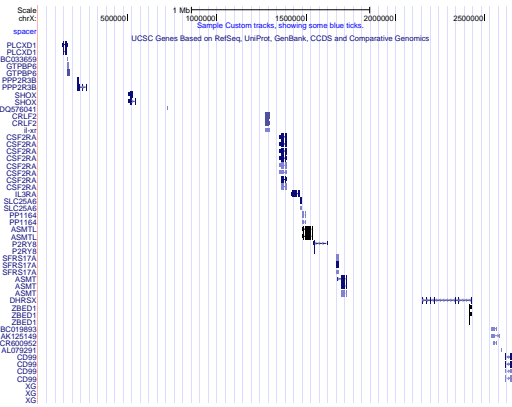

GSC (a gene chosen at random)

IL10 (involved in immunity)

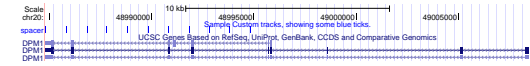

PAR1X (Pseudo-autosomal Region, chromosome X)

COX2 (involved in inflammation)

DPM1_100kwindow (DPM1 with a 100k zoom out)

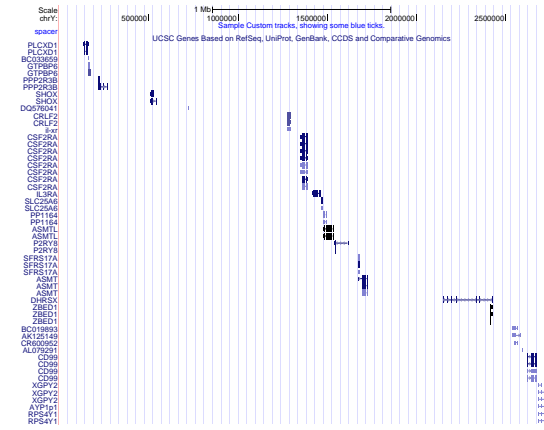

HSPB4 (Heat-shock protein)

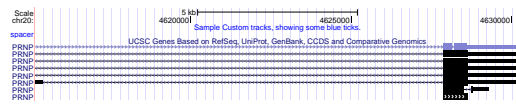

OXTR (potentially associated to positive behaviour)

PAR1Y (Pseudo-autosomal Region, chromosome Y)

PRNP (Prion Protein)

ZGPAT (another gene chosen at random)
